

AI PLAYBOOK · FOR REAL ESTATE AGENTS

The Real Estate AI Playbook

3 AI automations that answer every enquiry and match buyers to homes while you're out showing. In real estate, the agent who answers first gets the deal.

24/7

Never miss another enquiry. Every call and message gets answered, even during a viewing or late at night.

Steal it in 5 minutes

START HERE

In real estate, speed wins the deal.

The agent who answers first, and matches the right home fastest, gets the client. AI lets you do both, even when you're in a viewing. These are 3 automations we build for agents today. Read it in 5 minutes. Steal what fits, or let us build it for you.

WHAT'S INSIDE

1 The 24/7 Enquiry Agent

Answers calls and messages around the clock and books viewings into your calendar.

2 Instant Lead Response & Qualification

Replies to portal and ad leads in seconds, and tells you who is serious.

3 The Listing Matcher

Matches each buyer's request to your listings, and alerts waiting buyers automatically.

► TWO WAYS TO DO THIS

Each automation names easy tools you can try yourself. Here's the honest difference:

- **Try it yourself:** simple, low-code tools (Synthflow, Brevo, Make). Perfect for testing the idea.
- **Done by us:** pro-grade tools, EU-hosted, wired together and tuned on your real enquiries, and every AI assistant says it's AI (ready for the 2026 EU rules).

The 24/7 Enquiry Agent

THE PROBLEM

Enquiries come at all hours: evenings, weekends, and mid-viewing. Miss the first reply and the buyer simply moves on to the next listing.

WHAT IT DOES

An AI agent answers calls and messages 24/7, tells people it's an AI assistant, gives property details, and books viewings into your calendar.

WHAT CHANGES

Every enquiry gets an instant answer, and your viewings fill themselves, even while you're with another client.

Enquiries missed. Every call and message gets answered, even in the middle of a viewing.

⚡ **Insider:** most home searching now happens on a phone, in the evening and at weekends (Redfin; Trulia). If your line only answers 9 to 5, you miss the exact moment buyers actually look.

► DO THIS FIRST

Buyers ask the same 5 things about every listing. Load these and it can reply for you:

- Is it still available, and what's the price?
- How many rooms, and how big is it?
- Can I view it this weekend? Any parking or condo fees?

EASY TOOLS TO TRY: Synthflow · Vapi · Google Calendar

Instant Lead Response

THE PROBLEM

You get leads from portals and ads, but by the time you call back they've already spoken to three other agents. The fastest reply usually wins.

WHAT IT DOES

Every new lead gets an instant reply and a few smart questions, budget, area and timeline, so you know who's serious before you pick up the phone.

WHAT CHANGES

You reach buyers first, and spend your time only on the ones ready to move.

21x

more likely to qualify a lead if you reply within 5 minutes instead of 30 (MIT).

⚡ **Insider:** most sellers hire the first agent who gets back to them (NAR). Answering fastest, not marketing hardest, is often what wins you the listing.

► DO THIS FIRST

Write the 3 questions that flag a ready buyer. Three good answers means you call them now:

- What is your budget?
- Which area do you want?
- Is your finance ready to go?

EASY TOOLS TO TRY: Brevo · Pipedrive

The Listing Matcher

THE PROBLEM

Matching buyers to the right homes is slow and manual, and good matches slip through the cracks while you're busy with everything else.

WHAT IT DOES

AI matches each buyer's request, budget, area and size, to your listings instantly, and alerts waiting buyers the moment a new home fits.

WHAT CHANGES

The right property reaches the right buyer in minutes, not days, and no lead is forgotten.

Minutes

The right home reaches the right buyer in minutes, not days.

⚡ **Insider:** the matcher is only as good as your data. Export your listings from Idealista or Imovirtual into one clean, structured list, that's the fuel. Messy data means messy matches.

► DO THIS FIRST

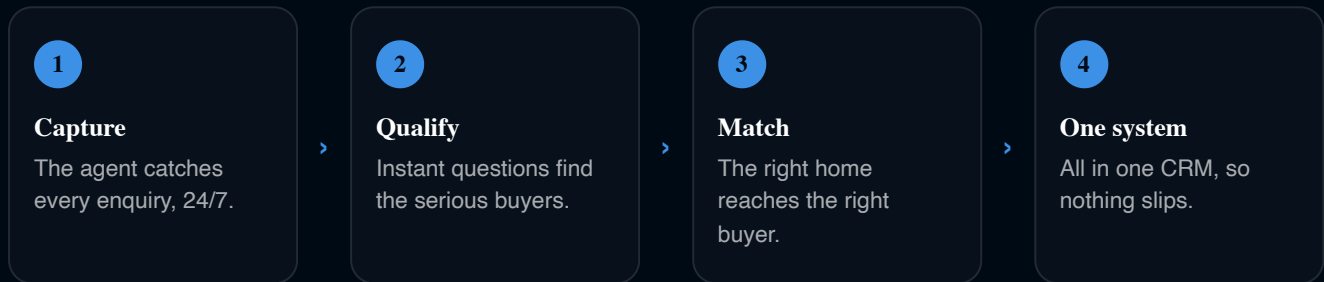

Put every listing into one list with these fields, and the matcher does the rest:

- Price and area.
- Rooms and size.
- Key features like garden, parking or floor.

EASY TOOLS TO TRY: Your CRM / listings sheet · [Make](#)

The magic isn't one automation. It's when they **connect**.

On their own, each one saves you time. Together they're a machine: every enquiry caught, every buyer matched, and nothing slipping.

⚡ **Insider:** you're holding buyers' and sellers' personal data. We keep it in the EU and only message people who opted in, the way GDPR expects, so fast never turns into a fine.

► WHERE MOST AGENCIES START

You don't switch it all on at once. The order that pays off fastest is:

- Start with the 24/7 Enquiry Agent, so you never miss a lead again.
- Add instant qualification, to spot ready buyers fast.
- Turn on the matcher last, to close the loop.

YOUR NEXT STEP

Want these built for your agency?

- 1 Follow [@arcangelo.automis](#) for daily, simple AI tips you can actually use.
- 2 Want the full setup done for you? Book a free call and we'll show you exactly what fits your agency.

WANT TO BUILD IT YOURSELF?

You can. The easy tools here get you started. The catch is the time: wiring each piece together and testing it until it works takes weeks. We build it with pro-grade, EU-hosted tools so it's reliable and GDPR-safe from day one.

Book a free call

15 minutes, free, no pitch. If it's not a fit, I'll tell you straight. We map the 3 automations to your agency and what to do first. Reach me at:
