

3 AI automations. One page.

Stop losing customers to a missed call. This is the short version, screenshot it and act on it.
Want the full breakdown and the exact tools? See below.

1 The Missed-Call Text-Back

- PAIN** You miss a call while busy, and the caller just rings the next business.
- FIX** The caller instantly gets a friendly auto-text, and the chat carries on.
- START** Write the one text you'd want a missed caller to get.

2 The 24/7 Booking Agent

- PAIN** People book evenings & weekends, when nobody's there to answer.
- FIX** AI answers & books 24/7 (and says it's AI), even after you close.
- START** Write your answers to the 5 questions customers ask most.

3 The Review Engine

- PAIN** Too few Google reviews, so the business with more stars wins.
- FIX** Auto-ask every customer (never just the happy ones) with a one-tap link.
- START** Ask right after they pay, while they're happy.

⚡ **The edge:** people now prefer texting a business over calling (EZ Texting), and for an independent business one extra star can lift revenue 5-9% (HBS). Catch the call, earn the review.
