

Start with Marketing & Growth

Prepared for Sara · E-commerce / retail

4-9 hrs

TIME BACK / WEEK

Focus pillar: **Marketing & Growth**, with gains in Sales & Acquisition.

Based on your answers, here are the three systems that would turn your marketing spend into booked revenue, in the order we would build them. The pages that follow show exactly how each one works.

■ YOUR TOP 3 AUTOMATIONS TO START WITH

1

AI Ads & Creative Agent (Meta & Google)

Continuously generates, tests, and optimises ad creative and targeting, so you get more qualified leads for the same budget.

2

Speed-to-lead + outbound Voice recovery

Every lead your ads generate gets an instant text, call, and voice-agent follow-up, so paid demand actually converts.

3

Funnel automation + nurture sequences

Automated landing pages and multi-step nurture warm the leads who are not ready yet, until they book.

Because you are spending on marketing but leads slip before they convert, we would start with the AI Ads & Creative Agent feeding a speed-to-lead system.

You are paying for attention, then wasting most of it.

You already spend real money to make people raise their hand: ads, creative, landing pages, social. The problem is rarely the traffic. It is what happens after the click, when a lead you paid for never gets a fast reply, never gets nurtured, and quietly turns from "not yet" into "never".

■ WHAT IT COSTS YOU, QUIETLY

The 5-minute window closes

A lead contacted within 5 minutes is far more likely to convert than one chased an hour later. Most brands reply in hours, and every minute of ad spend cools while they wait.

Weak creative burns budget

The same tired ads run for weeks with no fresh angles, so cost per lead climbs and the good prospects scroll past. You pay more for less qualified attention.

No nurture, so "not yet" becomes "never"

Only a small share of leads are ready to buy today. With no follow-up sequence, the rest are simply lost, even though you already paid to acquire them.

■ THE SHIFT

You do not need a bigger budget. You need better demand and a closed loop: fresh creative that keeps cost per lead low, an instant response the moment a lead lands, and nurture that carries the rest until they book. That is what the next three automations do.

An AI Ads & Creative Agent that gets more leads for the **same budget**.

Running across Meta and Google, this agent continuously generates, tests, and optimises ad creative and targeting. It behaves like a tireless media buyer that never sleeps, so your best-performing angles scale and the weak ones die fast, all without a human babysitting campaigns.

■ HOW IT WORKS

■ WHAT YOU GET

- ✓ **More leads, same spend**
Constant testing drives cost per lead down instead of letting it drift up.
- ✓ **Never a stale ad**
A steady stream of fresh creative keeps audiences engaged and cheap.
- ✓ **Optimised while you sleep**
Budget moves to winners around the clock, no manual campaign checks.
- ✓ **Leads that convert**
Better targeting means the leads you pay for are the ones sales can close.

BEFORE

The same handful of ads runs for weeks. Cost per lead creeps up, creative goes stale, and someone checks the dashboard when they remember to. Budget quietly wastes on losing variants.

AFTER

Fresh creative is generated and tested continuously, budget flows to winners automatically, and cost per lead stays low. You get more qualified leads for the same spend, feeding straight into sales.

Typical time back: a founder or marketer stops spending 4-9 hours a week making ads, watching dashboards, and manually reallocating budget.

Two systems that turn paid leads into booked revenue.

AUTOMATION 02

■ SPEED-TO-LEAD + OUTBOUND VOICE RECOVERY

Every lead your ads generate gets an instant text and call, then a natural-sounding voice-agent follow-up, before the interest fades. The demand you paid for actually converts instead of going cold in an inbox nobody checks.

- Fires in seconds, 24/7, the moment a lead lands from any campaign.
- A friendly first-touch text sets the appointment while intent is hot.
- The Voice Agent calls, qualifies, and books, or re-tries later automatically.

AUTOMATION 03

■ FUNNEL AUTOMATION + NURTURE SEQUENCES

Most leads are not ready to buy the first time they click. Automated landing pages and multi-step nurture across email and SMS keep warming the "not yet" crowd with the right message at the right time, until they are ready to book.

- Purpose-built landing pages that convert ad traffic instead of bouncing it.
- Multi-step email and SMS sequences that nurture without any manual work.
- Warm leads are handed back to sales at the exact moment they are ready.

An illustrative picture for a business like yours.

ILLUSTRATIVE EXAMPLE

An e-commerce and local retail brand running Meta ads with a low conversion rate.

They spend a steady monthly budget on Meta ads that bring in leads and clicks, but conversion is low and there is no follow-up after the first click. The same creative runs for weeks, and leads who do not buy on day one are never contacted again. After deploying the AI Ads & Creative Agent plus speed-to-lead and nurture, fresh creative keeps cost per lead down, every lead gets an instant reply, and the "not yet" crowd is nurtured to purchase. The result is more customers from the same budget, because leads are engaged instantly and warmed until they buy.

Illustrative scenario for explanation, not a specific client result. Your numbers depend on your volume and setup.

■ WHAT YOU WOULD HAVE RUNNING AFTER MONTH ONE

- Fresh ad creative generated and tested continuously, with budget on the winners.
- Every lead your ads produce texted and called within seconds, day or night.
- Automated landing pages and nurture warming every "not yet" lead until they book.

■ HOW WE WOULD BUILD IT, IN ABOUT 7 DAYS

Want us to build these three systems for you?

This roadmap is yours to keep. If you would like these automations running in your business, the fastest way forward is a short discovery call. No pitch deck, no obligation.

■ YOUR THREE SYSTEMS, RECAPPED

1

AI Ads & Creative Agent (Meta & Google)

More qualified leads for the same budget, with no human babysitting campaigns.

2

Speed-to-lead + outbound Voice recovery

The demand you paid for converts, because every lead gets an instant follow-up.

3

Funnel automation + nurture sequences

Warms every "not yet" lead until they book, fully automated.

■ WHAT HAPPENS ON THE CALL

- We look at where your marketing spend goes and where your leads leak.
- We tell you which of the three systems would move the needle first.
- You leave with a clear, honest view of what it takes and what it returns, whether or not you work with us.
