

AI PLAYBOOK · FOR ONLINE & SERVICE BUSINESSES

The Online Business AI Playbook

3 AI automations that turn DMs, comments and browsers into paying customers, for online stores, coaches, consultants and anyone who sells online. No big IT project.

Seconds

Reply to every lead in seconds, not hours, because the business that answers first usually wins the sale.

Steal it in 5 minutes

START HERE

Two things quietly kill sales: slow replies and lost buyers.

AI fixes both, and it doesn't need a big project. These are 3 automations we build for real businesses today, and the first one runs live on Meta for a client right now. Read it in 5 minutes. Steal what fits, or let us build it for you.

WHAT'S INSIDE

1 Social DM to Sale

AI turns your Instagram, Facebook and WhatsApp messages into leads and orders in your CRM.

2 AI Assistant on Your Website

A smart assistant on your site that answers, recommends and sells 24/7, by chat or voice.

3 Follow-up & Reactivation

AI chases warm leads and wakes up your old ones, so no sale is left behind.

► TWO WAYS TO DO THIS

Each automation names easy tools you can try yourself. Here's the honest difference:

- **Try it yourself:** simple, low-code tools (ManyChat, Brevo, Make). Perfect for testing the idea.
- **Done by us:** pro-grade tools, EU-hosted, wired together and tuned on your real leads, and every AI assistant says it's AI (ready for the 2026 EU rules).

Social DM to Sale

THE PROBLEM

People comment and DM you on Instagram, Facebook and WhatsApp, asking about price, availability and how to get started, often ready to buy. Those messages pile up while you work, and by the time you reply they've bought from someone else.

WHAT IT DOES

AI answers 24/7, tells people it's an assistant, handles the usual questions, and turns interested people into leads and orders in your CRM automatically.

WHAT CHANGES

Every message gets a fast reply, and real buyers move forward instead of getting lost in a busy inbox.

Live

This exact automation runs on Meta for a client right now. The AI handles the whole chat, and they rarely need to step in.

⚡ **Insider:** someone interested in your offer often messages a few businesses at once. The first to reply, and reply well, usually wins, so a fast, solid first answer beats everything else.

► DO THIS FIRST

List the 3 questions people always DM your business, and give the AI your answers:

- What exactly do you offer, and is it right for me?
- How much is it, and what's included?
- How do I get started or place an order?

EASY TOOLS TO TRY: ManyChat · Meta (IG + FB)

AI Assistant on Your Website

THE PROBLEM

Most visitors land on your site, have one question, and leave. Nobody's there to answer at 11pm, and a contact form feels like homework, so they bounce and buy somewhere else.

WHAT IT DOES

A smart AI assistant lives on your site and knows your products, prices and policies. Visitors can type or even talk to it. It answers instantly, recommends the right option, and guides them to buy or book, 24/7.

WHAT CHANGES

Your website stops being a brochure and starts closing. Every visitor gets a real answer the moment they ask for one.

24/7

A visitor with a question at midnight gets a real answer, in chat or by voice, instead of a contact form. That's the difference between a sale and a bounce.

⚡ **Insider:** the trick is grounding it in YOUR catalog and policies, not a generic FAQ bot. Add a voice option (people can literally talk to it) and it feels premium and converts, especially on mobile. It always says it's AI.

► DO THIS FIRST

Give the assistant what your best salesperson knows, so it can answer like one:

- Your top products or services, with prices.
- Your delivery, timing and returns policy.
- The 5 questions buyers always ask before saying yes.

EASY TOOLS TO TRY: Chatbase · Voiceflow · Tidio

Follow-up & Reactivation

THE PROBLEM

Two silent losses: warm leads who go quiet and never get chased, and a CRM full of old leads you already paid for and forgot. Both are money just sitting there.

WHAT IT DOES

AI runs the follow-up you never have time for. It nudges warm leads until they buy or say no, and re-opens old, cold leads with a friendly message or even an AI voice call, so dead lists come back to life.

WHAT CHANGES

Sales you'd have lost get recovered, and leads you already paid for start booking again, without you lifting a finger.

80%

of sales happen after the 5th follow-up, but most businesses give up after one. AI sends every one, on time, every time.

⚡ **Insider:** the fastest money in any business is the leads you already have. An AI voice agent that re-calls a cold list and books the interested ones often pays for itself in a week.

► DO THIS FIRST

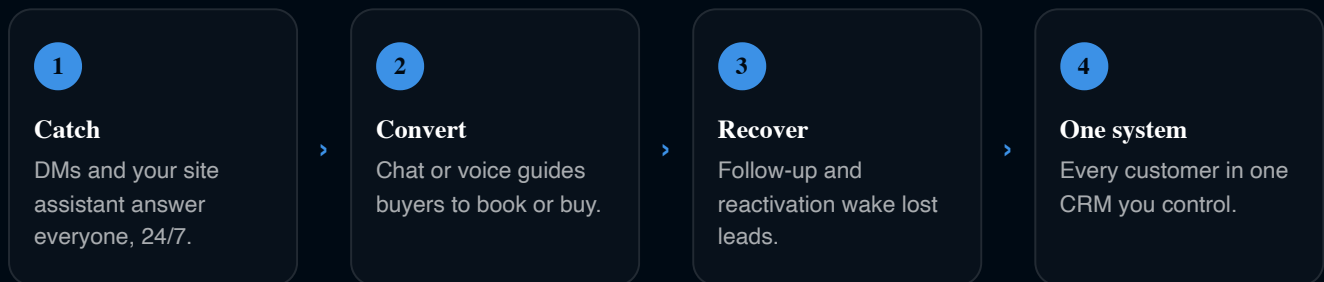

Point the follow-up at your three warmest pots first:

- Leads who replied, then went quiet.
- Abandoned carts and unfinished checkouts.
- Old leads from the last 6 to 12 months you never closed.

EASY TOOLS TO TRY: Brevo · Klaviyo · Make

The magic isn't one automation. It's when they **connect**.

Alone, each one helps. Together they become a system: every lead caught and answered, every visitor helped to buy, and every lost lead chased back down, all feeding one place you control.

⚡ **Insider:** your customer list is personal data. We keep it in the EU, connect only the tools you approve, and vet each one for privacy, the way GDPR expects. That's the difference between fast and reckless.

► WHERE MOST BUSINESSES START

You don't switch it all on at once. The order that pays off fastest is:

- Start by catching every lead: the DM agent plus the website assistant.
- Add follow-up, so warm leads don't slip away.
- Then reactivate your old lead list, the fastest money you already own.

YOUR NEXT STEP

Want these built for your business?

- 1 Follow [@arcangelo.automis](#) for daily, simple AI tips you can actually use.
- 2 Want the full setup done for you? Book a free call and we'll show you exactly what fits your business.

WANT TO BUILD IT YOURSELF?

You can. The easy tools here get you started. The catch is the time: wiring each piece together and testing it until it's reliable takes weeks. We build it with pro-grade, EU-hosted tools so it's reliable and GDPR-safe from day one.

Book a free call

30 minutes, free, no pitch. If it's not a fit, I'll tell you straight. We map the 3 automations to your business and what to do first. Reach me at:
