

YOUR AI OPPORTUNITY ROADMAP

Start with Sales & Acquisition

Focus pillar: **Sales & Acquisition**, with gains in Marketing & Growth.

Based on your answers, here are the three systems that would give you the most time and revenue back, in the order we would build them. The pages that follow show exactly how each one works.

■ YOUR TOP 3 AUTOMATIONS TO START WITH

1

24/7 AI Voice Agent (outbound + recovery)

Calls every new lead in seconds and re-works months of cold leads at volume.

2

Speed-to-lead instant call & SMS

The moment a form or ad lead lands, they get a call and a text before a competitor answers.

3

Aged-lead reactivation campaign

Turns your dead CRM list into booked calls, fully automated.

Because most of your leads arrive through ads and web forms and you are losing time to slow follow-up, we would start with the outbound Voice Agent.

You are paying to generate leads, then letting most of them go cold.

You already spend money and effort to make the phone ring: ads, forms, referrals, social. The problem is almost never the top of the funnel. It is what happens in the minutes and days after a lead raises a hand, when nobody is fast enough to catch them.

■ WHAT IT COSTS YOU, QUIETLY

The 5-minute window closes

A lead contacted within 5 minutes is far more likely to convert than one chased an hour later. Most businesses answer in hours, not minutes.

Calls go unanswered

Every missed call outside working hours, or while you are with a client, is a warm buyer handed to whoever picks up next.

Old leads rot in the CRM

Months of "not now" leads sit untouched because no human has time to call them all. Their reply rate is low, but at volume the recovered deals are pure profit.

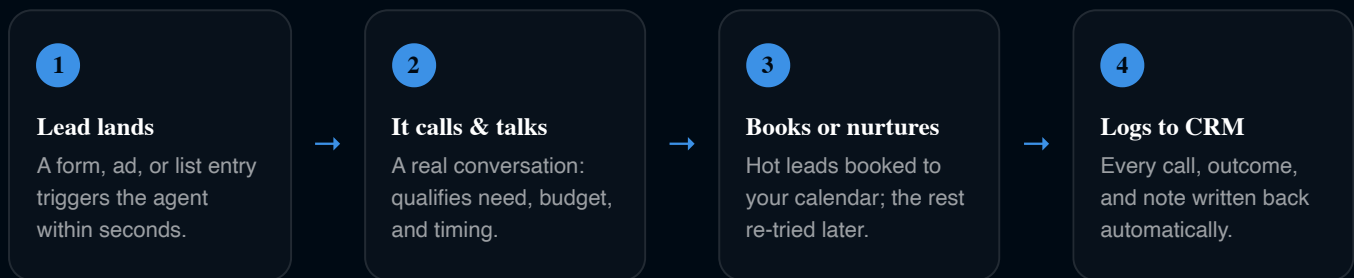

■ THE SHIFT

You do not need more leads. You need a system that reaches every lead instantly, follows up without tiring, and never lets a warm contact sit. That is what the next three automations do.

A 24/7 AI Voice Agent that works your leads **outbound**.

Built on our VoiceAI stack, this is not a chatbot. It is a natural-sounding voice agent that calls leads on your behalf, the second they come in and across your entire back catalogue, qualifies them, and books the good ones straight into your calendar.

■ HOW IT WORKS

■ WHAT YOU GET

- ✓ **Speed no human can match**
Every lead reached in seconds, at any hour, 365 days a year.
- ✓ **Zero leads left behind**
Fresh leads and old leads both worked, so nothing sits untouched.
- ✓ **Your calendar fills itself**
Qualified leads booked straight in, ready for you to close.
- ✓ **Your team stays focused**
No more manual dialing, so people work deals, not lists.

BEFORE

A staff member calls a handful of fresh leads when they get a spare moment. Old leads never get called at all. Evenings and weekends, nobody calls.

AFTER

Every lead is called within seconds, at any hour. Months of cold leads get worked through at volume, with zero staff time. You wake up to booked appointments.

Typical time back: a small sales team stops spending 1-2 hours a day on dialing and chasing, and stops losing the after-hours leads entirely.

Two systems that make sure no lead ever goes cold.

AUTOMATION 02

■ SPEED-TO-LEAD: INSTANT CALL & SMS

The moment a lead submits a form or clicks an ad, they get an automatic text and a call before your competitor has even seen the notification. First to respond usually wins the deal, and now that is always you.

- Fires in seconds, 24/7, on every channel your leads use.
- A friendly first-touch text buys you time and sets the appointment.
- Feeds straight into the Voice Agent for the live conversation.

AUTOMATION 03

■ AGED-LEAD REACTIVATION AT VOLUME

Every "maybe later" and "not now" lead you have collected is a database of near-misses. We run the whole list back through the Voice Agent and a smart follow-up sequence, so deals you had already written off quietly come back to life.

- Works hundreds or thousands of old leads without a human dialing one.
- Low reply rate times high volume still equals real, recovered revenue.
- Runs as a one-off revival or a monthly always-on sweep.

An illustrative picture for a business like yours.

ILLUSTRATIVE EXAMPLE

A real-estate agency running Meta ads for buyer and seller leads.

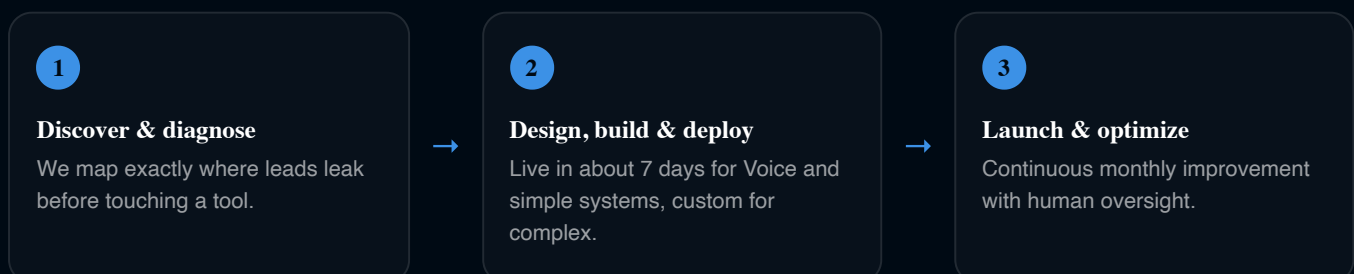

They generate roughly 80 leads a week but only 3 people to work them. Fresh leads get called when someone is free, often hours later. A backlog of about 1,200 older leads has never been re-contacted. After deploying the outbound Voice Agent plus speed-to-lead, every new lead is called in under a minute, and the old list is worked through over the first month. The result is more booked viewings from the same ad spend, and hours of manual dialing given back to the team every week.

Illustrative scenario for explanation, not a specific client result. Your numbers depend on your volume and setup.

■ WHAT YOU WOULD HAVE RUNNING AFTER MONTH ONE

- Every new lead called and texted within seconds, day or night, with no one at a desk.
- Your entire back catalogue of old leads worked through, with the revived deals booked in.
- Every call outcome and note written back to your CRM automatically, so nothing is lost.
