

3 AI automations. One page.

Stop losing patients to a missed call. This is the short version, screenshot it and act on it. Want the full breakdown and the exact tools? See below.

1 The 24/7 Booking Agent

- PAIN** Nights & lunch calls go to voicemail, and the patient just calls the next clinic.
- FIX** AI answers & books 24/7, and tells callers it's an AI assistant.
- START** Write the 5 questions patients ask most, that's what the agent needs.

2 The No-Show Reducer

- PAIN** Empty chairs are lost income, and phoning to confirm eats your team's day.
- FIX** Automatic WhatsApp/SMS reminders, 24 hours and 2 hours before.
- START** Set two reminder times and keep the message short.

3 The Review Engine

- PAIN** Great care, far too few Google reviews, so new patients can't see it.
- FIX** Auto-ask every patient (never just the happy ones) with a one-tap link.
- START** Ask right after checkout, while the visit is fresh.

⚡ **The tip most miss:** from Aug 2026, EU law says your AI must tell people it's AI. Most setups skip it. We build it in, so you're compliant and patients never feel tricked.

👉 **Want the full 7-page playbook + the exact tools?** Reply **PLAYBOOK**.

 **Want it built for you?** Book a free call (link in bio). 30 minutes, no pitch.
